***Including study materials

Purpose

The Financial Management seminar is designed to provide participants with a comprehensive understanding of financial management and its role in supporting organisational success. The programme explores how financial management contributes to strategic planning, operational efficiency, investment decision-making, risk management, and long-term value creation. Through practical applications, case studies, and discussions, participants will develop the knowledge and skills required to make informed financial decisions within a dynamic business environment.

Training Objectives

Upon completion of the seminar, participants will be able to analyse key financial management concepts, including investment, financing, valuation, and risk; understand financial markets, instruments, and the economic environment; identify the importance of corporate governance, sustainability, and stakeholder considerations; and calculate the cost of capital. Participants will develop practical skills in working capital management, investment appraisal using NPV, IRR and discounted cash flow techniques, business valuation, and the effective use of digital tools for financial analysis and reporting. The seminar will also promote ethical and professional judgement, a risk-aware mindset, and the ability to evaluate financing options and support sustainable, value-driven financial decision-making.

Candidates

This seminar is ideal for professionals involved in finance, accounting, compliance and business administration. It is designed for finance managers, financial controllers, accountants, auditors, financial analysts, business consultants, project managers, tax advisers, AML officers, administrative and compliance staff, as well as employees and decision-makers responsible for budgeting, cost control, performance measurement, investments and risk analysis. The programme is suitable for individuals seeking to strengthen their financial management knowledge and enhance their ability to contribute to strategic and operational decision-making within their organisations.

The program has been approved by the Human Resource Development Authority (HRDA). Businesses/organizations that participate in it with their employees, as well as unemployed individuals, will receive the relevant subsidy, provided that they meet the HRDA's requirements.
